# Overview

The Humber's European Structural and Investment Funds programme 2014-2020 is investing over £99.22m in the Humber through the European Regional Development Fund (ERDF), European Social Fund (ESF) and European Agricultural Fund for Rural Development (EAFRD).

To date, a number of programmes have been approved which provide support for people to access employment, consider starting their own business, improve their skills and become more socially included.

There are also a number of programmes that have been commissioned by our neighbouring LEPs which are delivering support in our overlapping areas of East Riding, North and North East Lincolnshire.

The Humber LEP is keen to ensure that all work coaches, advisors and organisations working to support people to gain employment or improve their skills are aware of the support that is being offered through these programmes, to stimulate cross referrals and make the necessary impact on levels of employment and skills in the Humber.

This document provides a summary of this support, as well as details of other Employment and Skills programmes that are currently live in the Humber which are complementary to the ESIF funded programmes. It also includes details of provision that is targeted at those that are considering starting their own business as an alternative.

**PLEASE NOTE** – This delivery of some of the programmes listed may have been impacted by **Covid-19** and as a result, delivery may be different to what is listed (e.g. use of online delivery methods, programmes paused etc).

**Geographic Coverage:** East Riding (York and North Yorkshire)

### Support Available:

Action Towards Inclusion (ATI) is part of the national Building Better Opportunities programme, funded by the Big Lottery Fund and the European Social Fund.

Throughout the programme, Action Towards Inclusion will engage with 3,100 of the most disadvantaged and hard to reach individuals across the York, North Yorkshire and East-Riding LEP area between 2017-2022.

The programme supports people to overcome physical, psychological, financial and skills-related barriers and progress towards employment, training, education and job-search, whilst at the same time helping to combat a range of social issues including poverty and social exclusion.

The project is led by Your Consortium and delivered through a network of 34 locally based delivery partner organisations, mostly from the voluntary and community sector. Partners provide a blend of long-term mentoring and specific interventions to remove participant's barriers relating to Health, Finances and Skills Development. The programme operates on an asset-based model, helping participants to identify and build on their strengths whilst working with them to remove barriers to progression. Participants receive support to try new things, build their confidence and be empowered to make positive and lasting changes to their lives.

## Skills Support for the Workforce – YNYER

**Project Sponsor:** Calderdale College

**Launch Date / Status:** Live

**End Date:**

**Target Audience:** SMEs in the YNYER LEP area in key sectors (Agri-tech and Agriculture, Bio Renewables and Bio-Economy, Food manufacture, Construction, Engineering, Voluntary, community and social enterprise, Visitor Economy, Health and Social Care)

**Geographic Coverage:** East Riding (York and North Yorkshire)

Small to medium-sized businesses based in York, North Yorkshire and East Riding can access fully funded training for their staff through the Skills Support for the Workforce programme. Free to eligible businesses, funding to cover the cost of training is provided by the European Union's European Social Fund and the Skills Funding Agency.

The programme can assist SMEs to address their immediate and future skills gaps by developing and delivering training plans tailored to their needs. There are a range of eligible courses from Level 2 and upwards, meaning there's something available to suit most needs.

The team can support SMEs by:

- Undertaking a training needs analysis to help identify current and future skills gaps
- Developing and delivering a bespoke training plan designed to meet business needs
- Supporting access to additional forms of training which cannot be delivered through this programme

To be eligible for support applicants must:

- Be a small to medium-sized business, operating in York, North Yorkshire or East Riding
- Be seeking to up-skill their workforce, with a focus on intermediate, technical and higher skills development, to support a clear growth plan or meet changing business needs
- Operate in one of the LEP's key sectors (see above)

## Hull FC Community Foundation “Create”

**Project Sponsor:** Hull FC Community Foundation (Community Led Local Development funded)

**Launch Date / Status:** Live

**End Date:** 2021

**Target Audience:** Unemployed and economically inactive

**Geographic Coverage:** West Hull and Central – CLLD eligibility applies

### Support Available:

The project will offer provision from two, well known Hull FC facilities located at the KCOM Stadium and Community Hub Centre located on Pickering Road. These sites are easily accessible by either foot or bus from large parts of the Hub area’s eligible postcode.

‘Create’ offers bespoke, outcome focused provision, engaging beneficiaries through the ‘power of sport’ in a City which is renowned for its sporting culture. It’s unique selling point is based on creating an environment that supports the beneficiary to lead a healthy lifestyle, knowing that evidence suggests good physical and mental health are vital to both gaining and sustaining employment and that unemployment can leave a person isolated and with poor health.

## CatZero Full Families Programme

**Project Sponsor:** CatZero (Community Led Local Development funded)

**Launch Date / Status:** 2019

**End Date:** 2022

**Target Audience:** Unemployed and economically inactive

**Geographic Coverage:** East Hull – CLLD eligibility applies

### Support Available:

Full Families Programme is a family-led early intervention initiative, designed to deliver meaningful change in the lives of families and individuals in families approaching crisis point in the CLLD hub area of East Hull. A rolling programme with flexible entry/exit points depending on need, we will utilise Family Group Conferencing and Restorative Practice to alter the trajectory of peoples' lives, tackling disadvantage, instilling resilience and confidence, addressing and overcoming the often complex underlying issues that limit family incomes, diminish quality of life and prevent personal progress out of poverty and into training or employment.

Project will help families engage effectively with public services, community organisations and service providers, breaking down barriers and building a level of trust that lasts into the future. Where needed, we will act as facilitator and advocate, helping to strengthen the family's relationship with each other and the wider community. In doing so, we aim to break the cycle of intergenerational deprivation.

## Ongo – Raising Aspirations

**Project Sponsor:** Ongo Communities

**Funder:** Ongo Communities

**Launch Date / Status:** Live

**End Date:**

**Target Audience:** Young people aged eight and over

**Geographic Coverage:** North Lincolnshire

### Support Available:

We have a team of specialist Youth Mentors who work with young people aged eight and over to inspire them, encourage them and give them the skills to grow to their full potential.

We work with schools and community groups to deliver:

- Mentoring support for young people who lack the role models and confidence to broaden their opportunities and potentially get a job or go to university
- Career advice for young people including a programme of careers days, providing information and inspiration from people in work, which may include workplace visits or motivational talks
- After school and holiday activities which are engaging, motivating and, most importantly, planned by young people
- Practical training to develop leadership skills
- Training and support to create a talent pool of young people prepared and ready to take up apprenticeships
- Training which includes life skills, money management and home maintenance, for later on in life

**Funder:** Community Safety Partnership  
**Launch Date / Status:** Live  
**End Date:** March 2021  
**Target Audience:** Young People and Ex-Offenders

**Geographic Coverage:** North Lincolnshire

### Support Available:

The programme aims to:

- Engage and support young people in positive activities that will reduce anti-social behaviour and offending, and result in better attendance at school, increased take up of training, apprenticeships and employment. The focus will be on young people causing anti-social behaviour and criminal damage across the Westcliff estate.
- Use the skills of people who have turned their own life around through recruiting and train volunteers who want to give back to the community, to both help at sessions in the Arc for young people where they can be supported in small groups and as mentors for individual young people and older ex-offenders.
- Support ex-offenders with employment support and training to get them into work, so they will be less likely to reoffend.

Support includes:

- One to one support from a mentor
- Functional skills training
- Academic qualifications, including Maths and English at equivalent to GCSE grade C
- Industry recognised qualifications in subjects such as Health and Safety, Food Safety, Safeguarding and COSHH (Control of Substances Hazardous to Health) as well as job specific training such as CSCS (Construction Skills Certificate Scheme)
- CV writing and interview skills
- Help with funding for interview clothes, childcare and travel
- Work experience, including eight week placements in retail, customer service, gardening, trades, health or social care

## The Careers & Enterprise Company

**Project Sponsor:** The Careers & Enterprise Company

**Launch Date / Status:** Live

**End Date:** N/A

**Target Audience:** Young People, Employers, Schools and Colleges

**Delivery Partners:** Umbrella organisation is working with all 38 LEPs nationally

**Geographic Coverage:** Humber (and nationally)

### Support Available:

The Careers & Enterprise Company has been established to help young people unleash their best possible futures. Their role is:

“To inspire young people and help them to prepare for and take control of their futures. We will help them make the link between their education and their futures and build the attitudes and attributes they will need throughout their careers. We will do this by filling gaps in the provision of careers and enterprise activities across the country and by increasing employer engagement with young people, enabling them to meet, speak to and understand employers of all sizes.”

At a local level, the project is being delivered through the established Enterprise Coordinator – Enterprise Advisor model to motivate young people and help them to make more informed choices in and out of schools. The programme works in partnership with LEPs, local authorities, schools, colleges and employers.

The Enterprise Advisor Network will enable volunteers to work directly with the senior leadership team in secondary schools and colleges to support more effective connection to the world of work and develop, shape or add value to the school or college’s careers, enterprise and employer engagement strategy.

The Humber LEP has two Enterprise Coordinators in place to deliver the Careers & Enterprise Company project in the Humber area. Each Coordinator is responsible for 20 prioritised schools/colleges and 20 Enterprise Advisers recruited from local businesses, as well as coordinating the support partnerships to ensure young people achieve their career goals, understand the local labour market and have all of the tools they need to assist them to success.

There are a number of national projects which are also operating in the Humber:

<b>EDT (Engineering Development Trust)</b> Industrial Cadets	Industrial Cadets (IC) operates through EDT, specialists in linking schools/students with employers to provide quality workplace experiences. IC is a work experience accreditation, raising young people’s awareness and aspirations of local jobs. It bridges this gap supporting employers to provide quality work experience governed by a competency framework, leading to effective apprenticeship pipelines.
---	---

<b>EngineeringUK Tomorrow's Engineers</b>	This project aims to ultimately double the number of young people choosing a STEM career by increasing the number of encounters a young person has with an employer through the expansion of the Tomorrow's Engineers (TE) Programme. The TE programme brings a strategic approach to employer engagement, building bridges with an already committed part of the employer community and schools, allowing greater coordination of employer outreach to where the need and the impact are greatest.
<b>Greenpower Education Trust Project Blyth</b>	Project Blyth will set up 50 teams of students who will each work with local employers to design, build and race an electric racing car. After the first year, the kit cars can be dismantled and reassembled by the next year group. This multidisciplinary project, e.g. design, electrical, mechanical and IT, in addition to workplace skills e.g. teamwork, financing and project planning provides an invaluable experience for young participants.
<b>St Helens Chamber Your Future Careers Fairs</b>	The project aims to deliver Careers Fairs across England, providing young people with 'encounters' and 'information', motivating, inspiring, and enabling them to engage more proactively with future careers guidance, resulting in better 'buy in' to their individual careers advice plan.
<b>The Prince's Trust</b>	Mosaic, a mentoring initiative of The Prince's Trust, helps young people from the most disadvantaged communities fulfil their potential. It's a group mentoring programme for Year 8 to 10 students in secondary schools. A team of mentors is assigned to one school and a group of around 25 students. Each mentor works with a smaller sub-group of five students. Mentoring lasts for the duration of the academic year.
<b>Young Enterprise</b>	"Young Enterprise provides a Learner Development Journey to young people consisting of a Day Programme, followed by a Company Programme. This journey ensures disengaged young people access the same opportunities as their peers and that they leave education with experiences of the world of work, as well as with the key skills that employers are looking for. The Day Programme runs across a full school day and comprises a series of practical activities and interactions with mentors from business; the focus is to raise the aspirations of disengaged young people. Young Enterprise works with the schools and mentors to identify those students who would most benefit from progressing on to the in-depth Company Programme. This sees young people plan for, set up and run their very own enterprise, working in small teams and supported weekly by a dedicated business mentor, as they experience every element of starting a business."

## Humber Skills Pledge

**Project Sponsor:** Humber Local Enterprise Partnership

**Launch Date / Status:** Live

**End Date:** N/A

**Target Audience:** SMEs

**Geographic Coverage:** Humber

### Support Available:

The Humber Local Enterprise Partnership introduced the Skills Pledge in 2013, aiming to provide employers with a one stop shop when it comes to supporting their current and future workforce.

Since its inception, a total of 373 organisations from across the Humber have supported the campaign which won national acclaim at the Adult Learners Week awards.

Organisations are asked to either sign up to individual pledges, or request to find out more information about each one:

- Developing the skills of the existing workforce
- Mentoring an entrepreneur
- Offering a work placement
- Offering a Traineeship or Apprenticeship
- Employing a graduate
- Supporting the development of employability skills

Organisations signing up receive a 'We have Pledged' logo to use on their website, literature, etc. as well as a pin-badge, certificate, and a monthly newsletter with news stories, funding updates, and events/programmes/opportunities to can get involved with, if they choose to.

Signing up to the Skills Pledge offers a platform for sharing best practice across the Humber.

# ESIF Calls for Projects

All calls for ESIF funded projects are published at <https://www.gov.uk/european-structural-investment-funds>

You can register to receive alerts on the above gov.uk website to notify you when calls for projects go live.

## Technical Assistance Partnership

The Technical Assistance Partnership is made up of number of organisations who work together in partnership across the Humber and North Yorkshire areas to promote the uptake of ESIF funding. The partnership is led by East Riding of Yorkshire Council and supported by four other local authorities, two universities, four colleges, and four companies limited by guarantee/charities.

The TAP:

- Promotes the ESIF Programme (ERDF and ESF) to potential project deliverers (through events, website, publications)
- Provides information, advice, guidance and support to potential sponsors to help them apply for ERDF and ESF
- Hosts brokerage and partnership development seminars
- Runs training workshops on a wide range of topics

The TAP can help potential applicants by:

- Discussing the eligibility of their project for ERDF or ESF funding
- Advising on the content of the Outline Application
- Providing guidance on technical topics (e.g. State Aid, procurement, publicity requirements, outputs)
- Delivering various workshops to explain the requirements of ERDF/ESF throughout the project life cycle

It is highly recommended that you join the TAP database to be notified of relevant project calls,
